## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy F. Myers on March 30, 2005.

The application has been amended as follows:

**Cancel Claims 17-18, 21-22 and 25-34.**

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the attached PTO 892 and IDS forms. None of the references or combinations thereof disclose or suggest depositing a nutrient medium on the surface of the substrate; growing elongated microbes to form oriented sacrificial mandrels; coating each oriented sacrificial mandrel with an outer layer of a desired nanotube material and removing the sacrificial mandrels while leaving oriented nano-tubes as required by the presently claimed invention. Therefore, claims 1-16, 19-20 and 23-24 are allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2812

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
